## Model 6028QC Twin Pac

### DESCRIPTION

This powerful portable 28 volt aircraft starter unit is a full 28VDC battery Twin Pac and will provide superior starts on all electrically-started turbine engines. This versatile Twin Pac can be used as a single unit or separated for two complete units that can be easily carried on board different aircraft. The 6028QC twin pack has redundant chargers with a total of 14 amps output and a recharge time of approximately four hours.

This unit is designed for engine starting only.

**NOTE:** When storing the Start Pac® for more than 30 days, fully recharge the unit, then remove the battery box from the charging unit and store separately. Do not plug the charging top in when disconnected from the battery box.
